

We are happy to share with you that **Wind & Water Works** is supporting Global Transmission's **4th annual conference** on [Offshore Wind Transmission Europe](#), taking place on **March 14-15, 2023** at **Hilton Amsterdam, The Netherlands**.

The mission of the conference is to discuss plans, strategies and technologies, and present solutions for developing offshore transmission infrastructure to integrate the envisioned OSW capacity in the region. The conference will also highlight the relevance of interconnectors, energy islands and meshed offshore grids for the EU's interconnected green energy transition.

Some of the key speakers include *(in alphabetical order)*:

- **Joachim Balke**, Head of Unit Network & Regional Initiatives, Directorate General for Energy, European Commission
- **Rebecca Sedler**, Commercial Director, National Grid
- **Erik Dugstad**, Senior Vice President, Market Analysis and Public Affairs, Vårgrønn AS
- **Hanne Storm Edlefsen**, Vice President for Energy Islands, Energinet
- **Michael Mahon**, Chief Infrastructure Officer, EirGrid
- **Benjamin Lehner**, CTO, DMEC
- **An Stroobandt**, Deputy Head of Cabinet, Federal Minister Energy, Government of Belgium
- **George Loizos**, Head of Electricity Networks and New Technologies, Regulatory Authority for Energy, Greece
- **Renske Ytsma**, Director, Offshore Wind Development Continental Europe, RWE Renewables
- **Simon Ludlam**, Chief Executive Officer, MaresConnect Interconnector
- **Niels Diepeveen**, Offshore Project Developer, TenneT TSO
- **Alejandro Matilla**, Head- Electrical Engineering, Skyborn Renewables
- **Saskia Jaarsma**, Head of Offshore Development, Large Projects Offshore, TenneT
- **Robert Keast**, Offshore Wind Project Manager, The Carbon Trust
- **Cristina Simioli**, Programme Manager - Offshore Energy and Nature from Renewables Grid Initiative
- **Dr Yin Sun**, Grid Connection Technology, Shell
- **Radhika Sundaram**, Policy Advisor, Department for Business, Energy and Industrial Strategy (BEIS), UK
- **Barbara Zuiderwijk**, Founder and Managing Director, Green Giraffe
- **Wadia Fruergaard**, Head of Offshore & Supply Chain Policy, Vestas
- **Prof Paul de Leeuw**, Director, RGU Energy Transition Institute
- **Dr Thor Ugelvig Petersen**, Vice President Offshore, NIRAS
- **Peter Lundberg**, Global Product Manager, Hitachi Energy
- **Getlyn Allikivi**, Offshore Grid Development Director, Elering
- **Siddharth Uppal**, Senior Product Manager – Service, NKT
- **Dr Manoj Pradhan**, R&D Manager, HVDC, Hitachi Energy
- **Stephane Tetot**, Managing Director, Blackrock Alternatives
- **Dr Ceciel Nieuwenhout**, Assistant Professor in Energy Law, Groningen Centre of Energy Law and Sustainability, University of Groningen
- **Fernando Sada**, Director of Grid Connection and Electrical Works, BlueFloat Energy
- **Heleen Vollers**, Senior Project Lead Eco-friendly Offshore Energy, Stichting De Noordzee
- **Lisa Fischer**, Programme Leader, Energy Systems E3G
- **Paul van Leest**, Co-Founder and Partner, Enersynt

There is a special discount of 30 per cent on the registration fee for all 'Wind & Water Works' members. If you are interested in participating, we urge you to [register soon](#) to avail the discount. The discounted fee is **EUR840 for 1 participant.** **When registering as a member, please select: 'Wind & Water Works' under 'Registration Category' and then use code: 'Wind & Water' on the checkout page to apply the discount.**

Global Transmission is a leading provider of information and analysis on clean energy and clean mobility through its research reports, newsletters, advisory services, and niche conferences.

Please reach out to us for more information. We hope to see you at the event!
